BECKETT SOLAR ENERGY

Terra Pave Albedo – fights climate change

Terra Pave can be applied to natural-ground walk-ways, access roads and parking lots. It hardens dirt into a pavement-like-layer and reflects light.

November 2021 — Beckett Solar Energy's partner, Terra Pave International and its product, Terra Pave Albedo has been cited and celebrated for fighting climate change.

Terra Pave Albedo was one of the top 10 winners out of 800+ applications for the EDP Renewables innovative Startup Challenge to fight climate change at the recent WEB SUMMIT in Lisbon, Portugal.

EDP Renewables is one of the largest developers and operators of wind and solar plants in the world. Terra Pave Albedo is currently being considered for an EDP solar farm in Brazil and in Portugal. See safety data sheet.
